The SPIE Journals online comprise the electronic versions of those journals that the Subscriber maintains a current subscription as confirmed by SPIE. (See the Appendix for information concerning subscription requirements and institutional IP addresses/ranges.) The span of issues available online begins with issues published in the month and year indicated below, and Authorized Subscribers have access to all journal issues (for the specified journal title) that are part of SPIE Journals Online.

[] *Optical Engineering* (Dec. 1997-present)

[] *Journal of Electronic Imaging* (Oct. 1997-present)

[] *Journal of Biomedical Optics* (Oct. 1997-present)

[] *Journal of Microlithography, Microfabrication and Microsystems* (All issues)

License

SPIE grants to the Subscriber and Authorized Users at the Subscriber's institution online access to the online journal for which the Subscriber maintains a current subscription. For purposes of this Agreement, Authorized Users means only the employees, faculty, staff, and students affiliated with the Subscriber, and persons with legal access to the library's collections and facilities on-site.

Permitted use by the Subscriber includes:

- Online access to the Journals
- Download, save, or print text, search results, or other information for private use or research
- Use of brief quotations from online texts with customary acknowledgment of the source
- Copy and transmit content in non-systematic scholarly exchanges of information

Altering, recompiling, systematic copying, reselling, redistributing, publishing or republishing (beyond the brief quotations allowed above) of any journal text, output, or search results is prohibited. SPIE Journals Online are subject to all applicable copyright, database protection, and other rights of the stated owner and publisher under the laws of the United States and other countries.

Copyright notices in the SPIE Journals Online may not be removed, obscured, or modified in any way.

Lapsed subscribers will be given the option to purchase a physical Archive copy on CD-ROM of the content in the Online Journals published during the term for which a paid subscription was maintained. The subscriber will be permitted to copy that content to the institution's information systems and redistribute that content to Authorized Users. Upon lapse of a subscription, no additional service is provided.

I have read and agree to adhere to and abide by the terms and conditions stated here, and I certify that I am authorized to sign this Agreement on behalf of the Subscribing Institution.

APPENDIX: INSTITUTIONAL IP ADDRESSES/RANGES

Note: Technical support and site administration of SPIE Journals Online is coordinated and maintained by the Americal Institute of Physics as part of the AIP Online Journal Publishing Service.

The SPIE journals Online has enabled IP-address-based access control for institutional subscribers. Each computer that accesses the Internet is assigned an IP address, commonly represented as four number groups separated by dots (e.g. 192.58.150.10). All Computers on a local area network, or subnet, may have the first two or three number groups in common. Access to SPIE journal(s) from your institution will be authorized based on the IP addresses and/or ranges you provide. (It is recommended that you consult with your network administrator to determine your IP addresses, subnets, and other critical information about your institution's network configuration.)

SPIE will accept up to ten IP addresses and/or ranges (Class B, Class C, and single station) via this form (attach additional sheets as necessary). Note that Class B requests will be subject to additional review. Please contact the AIP OJPS (Online Journal Publishing Service) Customer Service Office at ojps@aip.org or phone 1-800 874 6383 if you need to register a proxy of caching server, or if you have any additional questions. You may also consult the AIP web site (<http://www.aip.org/ojs/register.html>) for additional information on registering for online access.

All information provided regarding your IP addresses will be verified by AIP staff, and your network contact (which must be provided below) will be contacted if additional clarification is necessary.

Please type your IP addresses/ranges in the following formats (please contact the OJPS Customer Support Group if you require assistance):

Class B Network: Enter the first two (network) numbers and use asterisks, i.e., 128.58.*.*

Class C Network Type the first three (network) numbers and an asterisk for the host addresses, i.e., 192.58.150.* (ranges are acceptable; type 192.58.150.*-192.58.152.* to indicate Class C ranges)

Single Station(s): Type all four numbers, i.e., 192.40.158.10 (ranges are acceptable; type 192.58.150.10 - 192.58.150.30 to indicate ranges of single stations)

IP Addresses and/or Ranges:
